

Guiding Principles

Damascus Transportation Systems Plan and Hwy. 212 Land Use and Transportation Plan

- ◆ Provide safe and convenient options for ALL users and modes of travel
- ◆ Balance regional mobility and community livability
- ◆ Improve local and regional connectivity
- ◆ Provide a network of travel alternatives to Highway 212
- ◆ Design environmentally sustainable solutions
- ◆ Minimize impacts to natural and cultural resources
- ◆ Locate roadways with consideration to how existing development is impacted, supported, or leveraged for future investment
- ◆ Support the viability of local and regional business
- ◆ Protect the rural character of Damascus
- ◆ Develop creative, cost-effective and fundable solutions for immediate and long-term needs
- ◆ Develop state, regional and local partnerships to implement the transportation system

Specific to Highway 212

- ◆ Improve corridor travel time reliability and safety
- ◆ Increase capacity and options for east-west travel
- ◆ Protect the highway investment with land use vision and supporting development regulations
- ◆ Match the design of Highway 212 with the fabric and character of the community
- ◆ Integrate Highway 212 with the planned Sunrise Project while balancing mobility and community livability
